ABSTRACT

Rigantara, Lanang Reksa. 2013. **Error Analysis On Tourism Articles in Website www.batu.eastjava.com**. Study Program of English, Department of Languages and Literature, Faculty of Cultural Studies, Universitas Brawijaya. Supervisor: Fatimah; Co-supervisor: Agus Gozali

Keywords: error analysis, surface strategy taxonomies, kinds of errors.

Information about tourism is important, especially for guiding foreign tourists who want to go on vacation. Many media can be the source of information about tourism, one of them is website. In Indonesia, there are some websites which give information about tourism in English, but, still, there are errors appear in it. It is natural because English and Indonesian have different grammatical rules.

In this study, the researcher examines (1) the kinds of errors and (2) calculates the frequency of occurrence of each type of error find on tourism articles in website www.batu.eastjava.com. The researcher uses descriptive qualitative approach and document analysis in order to answer the research problems. In this research, the researcher classifies the errors based on Dulay et al's theory. The data are sixteen tourism articles in website www.batu.eastjava.com. In data collection, the researcher provides the sixteen tourism articles in website www.batu.eastjava.com and analyzed them one by one.

This study reveals errors that appear in various cases, there are omission, addition, misformation and misordering. Omission is divided into seven, they are omission of pronoun, omission of preposition, omission of be, omission of plural marker, omission of article, omission of noun, and omission of clause marker. The next is addition. Then, misformation is divided into seven, they are misformation of adverb, misformation of be, misformation of conjunction, misformation of singular verb, misformation of preposition, misformation of adjective, and misformation of verb. And for the last is misordering. The total number of errors is 223. The dominant errors that the writer find in the tourism article is omission (OM) with 141 errors (63%), followed by addition (AD) with 18 errors (8%), then misformation (MF) with 57 errors (26%), and the smallest number is misordering (MS) with 7 errors (3%).

The researcher suggests the next researcher who wants to conduct a similar research use another theory or other website articles like business, music, etc.

ABSTRAK

Rigantara, Lanang Reksa. 2013. **Analisa Kekeliruan pada Artikel Pariwisata di Website www.batu.eastjava.com**. Program Studi Bahasa Inggris, Jurusan Bahasa dan Sastra, Fakultas Ilmu Budaya, Universitas Brawijaya. Pembimbing: (I) Fatimah (II) Agus Gozali.

Kata kunci: analisa kekeliruan, *surface strategy taxonomies*, jenis kesalahan.

Informasi tentang pariwisata itu penting, terutama untuk memandu wisatawan asing yang ingin pergi berlibur. Banyak media bisa menjadi sumber informasi pariwisata, salah satunya adalah website. Di Indonesia terdapat beberapa website yang memberikan informasi pariwisata dalam Bahasa Inggris, tetapi masih terdapat kesalahan dalam penulisannya. Ini wajar karena Bahasa Indonesia dan Bahasa Inggris memiliki perbedaan dalam aturan tata bahasa.

Di dalam studi ini, penulis meneliti (1) jenis-jenis kesalahan dan (2) menghitung frekuensi terjadinya setiap jenis kesalahan yang ditemukan dalam artikel pariwisata pada website www.batu.eastjava.com. Penulis menggunakan pendekatan kualitatif deskriptif dan analisis dokumen untuk menjawab rumusan masalah. Di dalam penelitian ini, penulis mengelompokkan kesalahan berdasarkan pada teori Dulay. Data terdiri dari enam belas artikel di website www.batu.eastjava.com. Di dalam pengumpulan data, penulis menyediakan topik keenam belas artikel pada website www.batu.eastjava.com dan menganalisa satu persatu.

Studi ini menemukan kesalahan dalam berbagai macam bentuk, yaitu *omission*, *addition*, *misformation*, dan *misordering*. *Omission* dibagi menjadi tujuh, yaitu *omission of pronoun*, *omission of preposition*, *omission of be*, *omission of plural marker*, *omission of article*, *omission of noun*, and *omission of clause marker*. Selanjutnya adalah *addition*. Kemudian, *misformation* yang dibagi menjadi tujuh, yaitu *misformation of adverb*, *misformation of be*, *misformation of conjunction*, *misformation of singular verb*, *misformation of preposition*, *misformation of adjective*, and *misformation of verb*. Dan untuk yang terakhir adalah *misordering*. Jumlah total kesalahan adalah 223. Kesalahan dominan yang ditemukan oleh penulis di dalam artikel pariwisata adalah *omission* (OM) dengan 141 kesalahan (63%), diikuti dengan *addition* (AD) dengan 18 kesalahan (8%), kemudian *misformation* (MF) dengan 57 kesalahan (26%), dan jumlah terkecil adalah *misordering* (MS) dengan 7 kesalahan (3%).

Penulis menyarankan peneliti selanjutnya yang ingin melanjutkan penelitian yang sama menggunakan teori lain dan menggunakan website artikel lain seperti artikel bisnis, music, dll.
